

NEW

HEATMAX

Pasta Cooker

6kw Power

Model RCTHW-6 (Free-Standing)

Model RCTHW-6
w/ Standard Pasta Cooker Adapter And
Optional Stainless Steel Noodle Ladles

The new multipurpose pasta cooker from Hatco Corporation is easy to operate with three preset temperature settings for cooking pasta and vegetables. It is the ideal choice for hotels, quick-service restaurants and food kiosks because of its attractive appearance, rapid heating capabilities, and robust design.

It holds a wide variety of foods, including soups, curries, gravies, and toppings, which gives it greater flexibility. Accessory adapter kits provide a variety of operational needs. Heat is quickly and evenly distributed throughout this unit to hold food at desired temperatures.

FEATURES INCLUDE:

- Three temperature set points from 50°C (122°F) to 100°C (212°F)
- Energy saving low power mode
- Temperature protection device which automatically powers off the unit if it runs too hot
- Standard auto-fill feature automatically fills and replenishes water without user maintenance or intervention
- Insulated stainless steel design
- "Anti-Drip" design of well edge prevents water, sauce and condensation from flowing to the outside of unit
- Four optional adapter kit for soup kettle, sauce warmer, steam warming and reheating pre-cooked pasta
- Drain for easy cleaning and maintenance
- The power of 6kw can satisfy a variety of purposes for steam boil and warm
- Available in free-standing or built-in models
